Dear Parents and Carers

ECO-SCHOOLS GREEN FLAG ACCREDITATION

I am writing to you to share that this year our school has made the decision to work towards Eco-Schools Green Flag accreditation.

With the world beginning to experience the effects of climate change - from different species of plant and animals becoming extinct, to micro-plastics being found in the most remote locations on Earth - now, is the time to take action.

The Eco-Schools programme empowers young people to create positive change by taking a lead on environmental actions and projects in their school and local community.

Within Eco-Schools' simple framework, young people have the freedom to decide on the environmental issues they would like to tackle, the actions they would like to take, and how they are going to involve their school and community. The seven-step process takes around one academic year to complete and culminates in an Eco-Schools' assessor reviewing our application and recognising our achievements.

The Eco-Schools programme began in 1994 and is delivered in more than 100 countries around the world. The programme not only positively impacts our planet (for example, schools participating in the programme planted almost 50,000 trees during the last academic year), it also benefits young people, building teamwork and leadership skills, whilst increasing confidence and reducing eco-anxiety.

If your child would be interested in joining the Eco-Committee, to improve our school, and make a difference, they can do so through applying by scanning the QR code below.

As a key part of the Eco-Schools process is involving our entire school, including parents, I wanted to get in touch to let you know about our involvement. If you would like to support our work or know more about the Eco-Schools programme, please do not hesitate to get in touch.

Kind regards,

Joe Doul
