Dear Year, 7 Parents and Carers,

As part of our commitment to keeping our students safe, we are pleased to be offering our **Year 7 Road Safety Education Programme** again for the 2026–27 academic year.

The programme is designed to help students develop greater awareness of the risks they may encounter when travelling to and from school, and to encourage them to make safe and responsible decisions around roads.

The programme consists of three parts:

Part 1 – Consequences
Students will watch a short film and complete a quiz focusing on the importance of considering the consequences of our actions when near or crossing roads.

This is a teacher-led session and can be delivered at a suitable time during **Tutor time** sessions.

Part 2 – Distractions
Students will attend a short assembly, lasting no longer than 20 minutes, delivered by a member of the Road Safety Team.

The session will focus on the different distractions young people can face when near roads and will explore practical ways to recognise and avoid them.

Part 3 – Peer Pressure and Influence
A further assembly, also lasting no longer than 20 minutes and delivered by a member of the Road Safety Team, will explore how **peer pressure and the influence of others can affect the decisions we make**.

Students will be encouraged to think about how they can make safe choices, even when influenced by friends or their wider peer group.

We hope that this programme will help our Year 7 students develop the knowledge, confidence, and awareness they need to stay safe around roads.

Thank you for your continued support in reinforcing these important messages at home.

Kind regards,

Road Safety Education Team
South Gloucestershire Council
